## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: the closest prior art of record, Ishida et al. (EP 0421304), does not teach or render obvious a shielding body supporting said optical filters and preventing any light composed of other than the predetermined band of wavelength selected by said thin optical films and light producing an interference effect during measurement from being transmitted through said optical filters or a shielding body supporting the optical filter, the shielding body comprising upper edge faces that define a recessed opening in which the optical filter is disposed, and the upper edge faces are positioned closer to the window material than is the upper face of the optical filter. In addition, the arguments presented by the Applicants in the Amendment filed 2/20/04 are deemed persuasive. For example, see page 9, paragraph 2 to page 10, paragraph 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
